How Do You Ensure Your Practice Is Safe For Your Patients And Employees?

Introducing the only way to effectively manage your practice’s safety and compliance requirements: The Stericycle Clinical Services program.
**ISSUE:**

Ensuring the Safety of your Patients and Employees

- How can you be sure you are up-to-date on legislative changes, safety updates, and government directives?
- How can you educate, train and protect your employees and patients from health and safety concerns when you are busy running your practice?
- How do you ensure your health and safety program complies with all legislative requirements?

**SOLUTION:**

Stericycle Clinical Services

Stericycle Clinical Services ensures a comprehensive and effective safety program that keeps your employees, patients and your practice SAFE.

Each program includes:
- Comprehensive safety policies and procedures
- Innovative products
- State of the art interactive eLearning suite

**SAFE EMPLOYEES**

Keep your employees up-to-date on ever changing legislative requirements and use these management tools to help ensure compliance and reduce risk.
**SAFE PATIENTS**

Protect your patients and communicate your investment in their safety and well-being with the SAFE Patients Infection Control Program.

**SAFE FACILITIES**

Maintain effective control of the hazards in your workplace with the SAFE Facilities WHMIS Program. These tools work together to help identify risks and manage them through preventive measures and monitoring procedures.
